Title:

Measurement

Subtitle:

Redefine measurement rules

A submission from:

FRA

Purpose or Objective

Increase fairness and gear durability for the IQfoil competitions

Proposal

Create a working party with a goal to redefine measurement rules with accuracy and fairness for the foils. This working party should work together with Kite and Nacra class, manufacturer and class measurers to find out the best process.
Conclusion of this work should be done 3 months after setting the working party, and could submitted to vote in EGM.

Current Position**Reason**

Current measurement rules does not provide enough precision to preserve equity, and durability of equipment. Kite class and Nacra class are having some solutions, and mutualisation of thinking as well as sensibilisation of measurer could solve this
