**Title:****Amendment to Class Rules – C.7.1(c)****Subtitle:****Shimming of the foil box****A submission from:****The Executive Committee****Purpose or Objective**

To restrict the purpose of any shims used and to replicate the wording in C.8.1(a) as proposed.

**Proposal**

Amend Class Rule C.7.1(c) as follows;

**C.7.1 MODIFICATIONS**

(c) The **hull** box (where the **hull appendages** are fitted) lateral sides (port and starboard) may be shimmed with removable materials which shall not protrude in height the depth of the box. The orientation of the mast foil in its transverse alignment with the **hull** shall not be altered.

**Current Position**

See above.

**Reason**

To note that the intention of the shims is to secure a good fit between the mast foil and the hull – not to permit optimisation of the position of the mast foil relative to the board. Class rule B.2.2 would apply.
