Title:

Marathon race Policies : Marathon zone and course identification

Subtitle:

Early sailors and coachs communication of the Marathon course

A submission from:

FRA

In every IQ Foil competition, the racing schedule include a Marathon race. This race can have a big influence on the general results.

As we know the course area in the NOR of the event, before the event, we need to know the area and course possibilities for the marathon before the event.

It's important for sailors and coaches to observe and anticipate the strategy of this race but it's also important for the event organizer to anticipate the prohibitions or administrative requests to be made to make the course possible.

Even if the rounding order, the rounding side of the marks, the number of leg can be changed later.

Proposal

The official communication of areas, natural marks, additional marks positions of the different marathon courses (depending of the wind direction) have to be made at least 7 days before the first day of racing.

Current Position

There is no case law on this in iQFOiL

Reason

To prepare for races the week before and develop the strategic work.

To ensure that all requests and administrative prohibition are anticipated.
