Title:

Working Group to address Weight Issue

Subtitle:**A submission from:**

MEX

Purpose or Objective

To establish a Working Group to devise a method or put in place measures to deal with the weight issue that has developed within the Class.

Proposal

For the Executive Committee to establish a Working Group to devise a method or put in place measures to deal with the weight issue that has developed within the Class. In doing so the Working Group will work in collaboration with the World Sailing Medical Committee.

A Working Group proposal to be put forward for approval at Midyear Meeting.

Current Position

NA

Reason

The average weight for competitors in the Class is reaching a level which is potentially unsafe. It also alienates a large percentage of the population from being competitive in the sport. Neither of those things are good for the youth, or for the growth of the Class worldwide. It is also a health and safety issue for which the Class is responsible.
