Title:

Global evaluation of proposed equipment changes

Subtitle:

MNA Equipment evaluation

A submission from:

On behalf of the Australian iQFOiL Class

Purpose or Objective

To supply all MNA with any proposed equipment to be change, so the MNA members can test prior to any vote on acceptance is undertaken.

Proposal

All MNAs shall be supplied with any equipment that is proposed for change, giving ample time to evaluate prior to an EGM or GM vote of acceptance.

Current Position

There is no current position

Reason

Suppling proposed changed equipment to MNAs, allows the MNA to gain a first-hand appraisal of the equipment.

This will give the MNAs a clearer picture of the ramifications of the proposed changes to the class equipment prior to having to vote on acceptance.

Any changes of equipment that change the demographic of the IQ class need to have very thorough and broad evolution prior to any EGM or GM vote.

The process of equipment testing and change needs to be seen as a clean and open process.

At the moment the perception is that in the past the more powerful MNAs have proposed and tested equipment and the emerging nations have just excepted the more powerful MNAs findings.

A broader range of rider testing may uncover off unforeseen consequences of proposed changes.
