Title:

Amendment to Class Rules – C.3.3(iv)

Subtitle:

Clarification on the drinking container

A submission from:

The Executive Committee

Purpose or Objective

To clarify the requirements of a drinking container and to include an overall weight.

Proposal

Amend class rule C.3.3(iv) to read as follows;

C.3.3(iv) a drinking container in compliance with RRS Appendix B, B50.1(a). The drinking container may be an independent device or may be contained within a separate holder such as a backpack. The total weight shall not be more than 2.0kg when empty of fluids.

Current Position

See above.

Reason

At the iQFOiL 2022 World Championships, it was noted that the current class rules and RRS permit a drinking container but that a holder for the drinking container is not permitted. It was also noted that some drinking containers were modified to increase their weight. The proposed text allows for a drinking container, ie a bottle, bladder etc, to be secured either directly or independently to the sailor.

The weight limit is based on weights recorded during the event and represents the heaviest (non-modified) container found in circulation
